Your first step to Success

Our Diploma in Psychology programme is designed to equip students with a sound understanding of the social reality of environments in modern society. Students will be exposed to learning abstract fundamentals in the discipline of psychology as well as applied psychology. For those aspiring to pursue a professional career in this field, the career prospects are indeed broad. Our programme will ensure that you get all the training you will need to be successful!

Why are we unique?

- Students gain a better understanding of the human mind and why people act the way they do.
- Students are exposed to a variety of introductory studies into branches such as counselling, psychotherapy, cognitive psychology, physiological psychology, and many more.
- Our course modules are intercepted with experiential learning through various activities (e.g. Visits to hospitals, orphanages, rehab centres).
- Students will be guided to think critically and develop their analytical skills in preparation for their future careers.
- Students will be trained in different forms of counselling skills and techniques.
